

## CAMPUS LE(O)BEN

Located in the heart of Austria, Montanuniversität Leoben is characterised by its excellent infrastructure and public transport connections. Our campus comprises twelve modern buildings within walking distance. Take advantage of the bright and spacious places to study together with your fellow students. You can put your knowledge into practice in over 100 workshops and laboratories.

In addition to the city's green parks, the wide range of student accommodations contributes to the high quality of life. You will also be thrilled by the huge variety of leisure and outdoor activities.

The mix of cultural diversity – international students from almost 90 nations are currently at home in Leoben – and the mining traditions contribute to the city's unique flair. Start your studies in Leoben – a chapter in your life you will never forget.

## YOUR PATH TO SUCCESS

At Montanuniversität Leoben, you are part of a large community that supports you from day one and beyond your graduation:

- Individual student counselling before your A levels/high-school graduation
- No entrance exam
- MINT@Leoben: immerse yourself in the basic subjects before the start of the semester
- Well-organised start with a compact STEOP phase
- Students' Union tutors help you start your studies
- First joint academic year with flexibility in planning your studies
- Support from peer teachers during exam preparation
- "Do-it-Labs" to put your knowledge directly into practice
- Innovative, experimental tasks in many classes
- Enough laboratory places for all students
- Over 70 courses at the University Sports Institute Leoben
- Center for Language, Learning and Culture
- Many opportunities for terms and internships abroad
- Wide range of master's programmes in German and English

# OUR MISSION

Montanuniversität Leoben stands for cycle-oriented systems and, as a world-renowned educational institution, works on pioneering solutions concerning "Green Technology". We offer a diverse range of courses, taught in German but also in English. As a Leoben graduate, your expertise in the fields of "Advanced Resources", "Smart Materials", "Sustainable Processes", and "Responsible Consumption and Production" will put you in high demand with employers around the world and prepare you for the challenges of the future.

Being Austria's smallest technical university with approximately 3,000 students, Montanuniversität plays a major role both nationally and internationally. A recent survey says that at no other university students feel more comfortable than at Montanuniversität Leoben.

Martin, Energy Engineering

"Key issues in our society are the energy transition, the conservation of resources and the economic use of energy. Being able to gain the competence to tackle these issues in combination with the family-like environment at the Montanuni convinced me to study Energy Engineering in Leoben."

# BACHELOR'S PROGRAMMES

## ADVANCED RESOURCES

- Applied Geosciences
- Energy Engineering
- Geoenery Engineering
- Mineral Resources Engineering

## SMART MATERIALS

- Materials Science and Technology

## SUSTAINABLE PROCESSES

- Industrial Data Science
- Industrial Logistics
- Mechanical Engineering
- Recycling Technology
- Metallurgy and Metal Recycling
- Environmental and Climate Protection Technology

## RESPONSIBLE CONSUMPTION AND PRODUCTION

- Circular Engineering
- Responsible Consumption and Production (EURECA-PRO)

# YOUR FIRST YEAR IS A JOINT YEAR:

The first year of study is almost identical for all students. You can also change your course of study during this period as the first two semesters aim at providing the basic knowledge required for a technical degree programme in chemistry, physics, mathematics, etc.

"The combination of a basic technical training and a strong focus on environmental protection and resource conservation convinced me to study at Montanuniversität Leoben."

Caroline, Recycling Technology
