

International AMASE Master Programme in Europe

Students can apply to join the AMASE Master Programme, which provides a double degree for carrying out a two-year international Master's in Advanced Materials Science and Engineering.

APPLICATION PERIOD FOR INTAKE 2026 IS NOW OPEN!

The **Joint European Master Programme in Advanced Materials Science and Engineering (AMASE)** is aimed at students who have already obtained their Bachelor's in Materials Science, Materials Engineering or other related Engineering Sciences, as well as Physics, Chemistry or other Natural Sciences.

The programme is carried out by:

- UdS – Universität des Saarlandes / Germany
- LTU – Luleå tekniska universitet / Sweden
- UL – Université de Lorraine / France
- UPC – Universitat Politècnica de Catalunya Barcelonatech /Spain
- MUL – Montanuniversität Leoben / Austria
- UNIPD – Università degli Studi di Padua / Italy

- Within AMASE, students spend the first and second semesters at one of the partner universities and the third semester at a Second University.
- In the fourth (last) semester the student writes the Master's thesis either at the Second or the Entrance University.

Through this **exchange of cultures**, the student gains vast advantages in the academic **labour market**, profits from personal growth and learns at least one new language.

A particularity of the AMASE programme is that students have to study in two different languages by selecting the corresponding university (Spanish at UPC, French at UL, German at UdS and English at LTU, MUL and UNIPD). Language courses, as well as training in intercultural communication and complementary skills, are provided during the course.

Participation costs for the programme are 1.500 € per semester for EU-students and 4.500 € per semester for Non-EU students. The AMASE programme as well as the different partner universities provide diverse funding opportunities as well as fee reductions to the best students.

- Funding possibilities for intake 2026 -

AMASE scholarship (fee reduction), Erasmus+ mobility grant, ORION Excellence scholarship (UL), student assistant position (UdS, LTU), DFH-PhD-Track (UdS, UL), Thesis support (UL, MUL).

The deadline for applying to the AMASE programme intake 2026 is:

31st March 2026

31st May 2026 (EU students - not starting LTU)
