Research and Innovation in the European University on Responsible Consumption and Production RE-EURECA-PRO

OVERVIEW

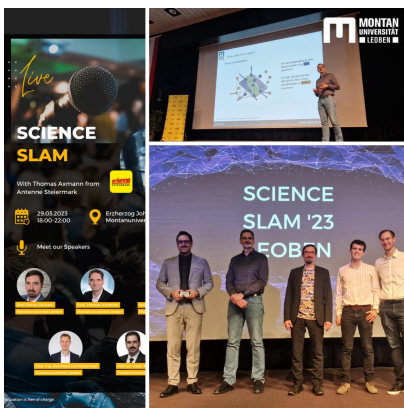

RE-EURECA-PRO supports the research and innovation dimension of EURECA-PRO, the European University on Responsible Consumption and Production. The project consists of 9 Work Packages, each lead by one of our international partner universities, and reflects a commitment to interdisciplinary scientific excellence, intercultural knowledge, citizen engagement, diversity and life-long learning. RE-EURECA-PRO provides important impetus for the realization of EURECA-PRO's vision of becoming an innovation leader in the Responsible Consumption and Production (RCP) of goods and resources.

RE-EURECA-PRO Workplan

RE-EURECA-PRO aims:

- to develop a common research & innovation mindset and agenda across the alliance and set up clustering activities and action plans for pilots and case studies, involving stakeholders across society.
- to set up approaches for balanced brain circulation, gender equality and comprehensive open science practices.
- to develop a framework for joint innovation, research and infrastructure utilization.

European University on Responsible Consumption and Production

European Universities are intended to represent a new form of cooperation between higher education institutions in Europe with the long-term goal of strengthening the excellence of the European Higher Education Area.

9 Partner Universities

110 Departments

120.000 Students

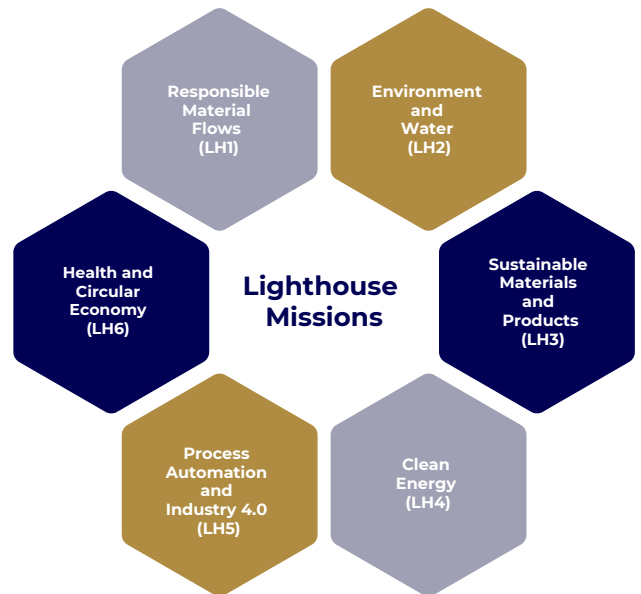

The EURECA-PRO alliance is a unique mix of top-level cross-disciplinary education and research institutions. Together, the 9 partner universities have joined forces to enable students and staff to study, teach and research in the field of the United Nations Sustainable Development Goal Nr. 12 (SDG 12) Responsible Consumption and Production, with the long-term goal of creating an integrated virtual European campus.

EDUCATION

New and unique educational programmes (at undergraduate, postgraduate and doctoral levels), courses and modules are being delivered across EURECA-PRO by all partners of the alliance. The alliance currently offers 2 Bachelor degree programmes, 4 Master degree programmes and 1 Joint Master degree programme.

RESEARCH & INNOVATION

- 6 Lighthouse Missions (LHs) within the EURECA-PRO alliance, covering 805 SDG 12 research topics
- 10 proposals for European projects initiated by the EURECA-PRO alliance (ERASMUS+, HEUR, EIT)
- 80 scientific publications
- 6 Science events, 3 EURECA-PRO conferences and 1 Hydrogen & Carbon Summit
