University Sports Institute (USI)

Since 1972, the University Sports Institute (USI) provides students and employees of the Montanuniversität Leoben with a wide range of different sports courses.

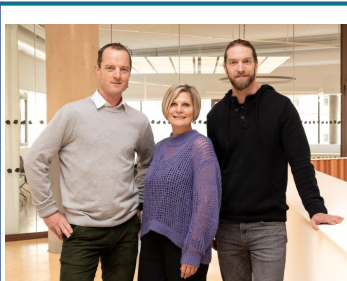

The special thing about our USI courses is, that a certain degree of the costs are covered by the federal ministry and the university itself. Therefore our courses can be held at a very low and student friendly price.

During one year, we offer around 150 sports courses, including traditional sports like **Football, Climbing, Running** or **Fitness classes**, as well as newer and more exotic sports like **Poledance, Open Water Swimming** or **Fly Fishing**.

Also, the USI organizes different sports competitions during the semester, which are known as the “Leobner Academic Championships” in the respective sport.

Here you will find all the information regarding the current course programme for the summer semester 2026:
